Cyber Security Agency of Singapore

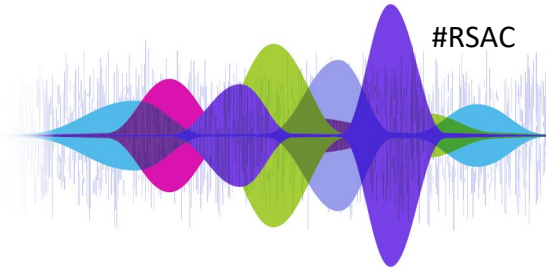
Apply What You Learned



Next week you should: Identify cyber security products and services that your organization could adopt to better suit developing country contexts.

In the first three months following this presentation you should: Develop products and services that are more accessible and appropriate for Southeast Asia and the Pacific countries

- In context of limited absorbative capacity, cyber workforce and ICT budgets, cultural diversity and geographic remoteness.

Within six months you should: When engaging Southeast Asia and Pacific partners ensure product offerings are responding to requests from the region and are tailored to the relevant country to help bridge the great cyber security divide!
